3. Definitions

For the purpose of this policy, the school defines "**social media**" as any online platform that offers real-time interaction between the user and other individuals or groups including, but not limited to, the following:

- Blogs
- Online discussion forums, such as NetMums
- Collaborative spaces, such as Facebook
- Media-sharing devices, such as YouTube
- 'Micro-blogging' applications, such as Twitter

For the purpose of this policy, "**cyberbullying**" is defined as any social media or communication technology intentionally used to bully an individual or group, including the posting or sharing of messages, images or videos.

For the purpose of this policy, “**members of the school community**” are defined as any teacher, member of support staff, pupil, parent of a pupil, governor or ex-pupil.

4. School social media accounts

Social media accounts for the school will only be created by the marketing officer and other designated staff members, following approval from the headteacher. A school-based social media account will be entirely separate from any personal social media accounts held by staff members and will be linked to an official school email account.

When setting up a school social media account, consideration will be given to the following:

- The purpose of the account
- Whether the overall investment will achieve the aim of the account
- The level of interactive engagement with the site
- Whether pupils, staff, parents or members of the public will be able to contribute content to the account
- How much time and effort staff members are willing to commit to the account
- How the success of the account will be evaluated

The headteacher will be responsible for authorising members of staff and any other individual to have admin access to school social media accounts. Only people authorised by the headteacher will be allowed to post on the school’s accounts.

The passwords are only shared with people authorised by the headteacher.

All posts made to school social media accounts will not breach copyright, data protection or freedom of information legislation.

The school’s social media accounts will comply with the platform’s rules. The Headteacher will ensure anyone with authorisation to post on the school’s social media accounts are provided with training on the platform and the rules around what can be posted.

School social media accounts will be moderated by the Headteacher.

Staff conduct

Only staff with authorisation from the headteacher will post on school accounts.

Staff will get content approved by the Headteacher before it is posted. Staff will only post content that meets the school’s social media objectives, including the following:

- Reminders about upcoming events
- Good news regarding the school’s performance, attainment or reputation
- Good news regarding the achievements of staff and pupils
- Information that parents should be aware of, e.g. school closure

Staff will ensure that their posts meet the following criteria:

- The post does not risk bringing the school into disrepute
- The post only expresses neutral opinions and does not include any personal views
- The post uses appropriate and school-friendly language
- The post is sensitive towards those who will read it, and uses particularly neutral and sensitive language when discussing something that may be controversial to some
- The post does not contain any wording or content that could be construed as offensive
- The post does not take a side in any political debate or express political opinions
- The post does not contain any illegal or unlawful content

5. Data protection principles

The school will obtain consent from pupils and parents at the beginning of each academic year using the [Social media consent form](#), which will confirm whether or not consent is given for posting images and videos of a pupil on social media platforms. The consent will be valid for the entire academic year. Consent provided for the use of images and videos only applies to school accounts – staff, pupils and parents are not permitted to post any imagery or videos on personal accounts.

Where a pupil is assessed by the school to have the competence to understand what they are consenting to, the school will obtain consent directly from that pupil; otherwise, consent is obtained from whoever holds parental responsibility for the pupil.

A record of consent is maintained throughout the academic year, which details the pupils for whom consent has been provided. The admin staff are responsible for ensuring this consent record remains up-to-date.

Parents and pupils are able to withdraw or amend their consent at any time. To do so, parents and pupils must inform the school in writing. Where parents or pupils withdraw or amend their consent, it will not affect the processing of any images or videos prior to when consent was withdrawn or amended. Processing will cease in line with parents' and pupils' requirements following this. Wherever it is reasonably practicable to do so, the school will take measures to remove any posts before consent was withdrawn or amended, such as removing an image from a social media site.

Consent can be provided for certain principles only, for example only images of a pupil are permitted to be posted, and not videos. This will be made explicitly clear on the consent form provided. The school will only post images and videos of pupils for whom consent has been received.

Only school-owned devices will be used to take images and videos of the school community, which have been pre-approved by the online safety officer for use. Only appropriate images and videos of pupils will be posted in which they are suitably dressed, i.e. it would not be suitable to display an image of a pupil in swimwear.

When posting on social media, the school will use group or class images or videos with general labels, e.g. 'sports day'.

When posting images and videos of pupils, the school will apply data minimisation techniques, such as pseudonymisation (blurring a photograph), to reduce the risk of a pupil being identified. The school will not post pupils' personal details on social media platforms and pupils' full names will never be used alongside any videos or images in which they are present.

Before posting on social media, staff will:

- Refer to the consent record log to ensure consent has been received for that pupil and for the exact processing activities required.
- Ensure that there is no additional identifying information relating to a pupil.

Any breaches of the data protection principles will be handled in accordance with the school's Complaints Procedure.

6. Staff social media use

Staff will not be prohibited from having personal social media accounts; however, it is important that staff protect their professional reputation by ensuring they use personal social media accounts in an appropriate manner.

Staff will be required to adhere to the following guidelines when using personal social media accounts:

- Staff members will not access social media platforms during lesson times but are permitted to use social media during break and lunchtimes in the staffroom.
- Staff members will not use any school-owned mobile devices to access personal accounts.
- Staff will not 'friend', 'follow' or otherwise contact pupils through their personal social media accounts. If pupils attempt to 'friend' or 'follow' a staff member, they will report this to the headteacher.
- Staff will be strongly advised to not 'friend' or 'follow' parents on their personal accounts.

Staff members will ensure the necessary privacy controls are applied to personal accounts and will avoid identifying themselves as an employee of the school on their personal social media accounts.

Staff will ensure it is clear that views posted on personal accounts are personal and are not those of the school.

Staff will not post any content online that is damaging to the school, its staff or pupils.

Staff members will not post any information which could identify a pupil, class or the school – this includes any images, videos and personal information.

Staff members will not post anonymously or under an alias to evade the guidance given in this policy.

Staff will not post comments about the school, pupils, parents, staff or other members of the school community.

Breaches of this policy by members of staff will be taken seriously, and in the event of illegal, defamatory or discriminatory content, could lead to prosecution, disciplinary action or dismissal. Members of staff will be aware that if their out-of-work activity brings the school into disrepute, disciplinary action will be taken.

Attempts to bully, coerce or manipulate members of the school community via social media by members of staff will be dealt with as a disciplinary matter.

School accounts

The school's social media sites will only be created and monitored by the headteacher and ICT lead and other designated staff members. There will be a strong pedagogical or business reason for the creation of social media accounts on behalf of the school; official school profiles and accounts will not be created for trivial reasons.

A school social media account will be entirely separate from any personal social media accounts held by staff members and will be linked to an official school email account.

Consideration will be given to the following aspects:

- The purpose for using social media
- Whether the overall investment will achieve the pedagogical aim
- The level of interactive engagement with the site
- Whether pupils, staff, parents or members of the public will be able to contribute content to the account
- How much time and effort staff members are willing to commit to the proposed site
- A clear plan which outlines aspects such as how long the site will last
- How the success of the site will be evaluated

School social media passwords are kept by the headteacher and ICT lead, these are not shared with any unauthorised persons, including pupils, unless otherwise permitted by the headteacher. Staff will adhere to the data protection principles outlined in section 4 of this policy at all times.

Staff will ensure any posts are positive in nature and relevant to pupils, the work of staff, the school or any achievements. Staff will not post any content online which is damaging to the school or any of its staff or pupils.

All content expressed on school social media accounts will not breach copyright, data protection or freedom of information legislation.

Staff will ensure the headteacher has checked the content before anything is posted on social media. If staff wish for reminders to be posted for parents, e.g. returning slips for a school trip, staff will seek permission from the headteacher before anything is posted.

The school's social media accounts will comply with site rules at all times, particularly with regards to the minimum age limit for use of the site. It will be noted that each networking site has their own rules which must be followed – the communications officer will induct staff to each new social media platform, providing them with the relevant training and information.

Personal accounts

Staff members will not access social media platforms during lesson times, but they are permitted to use social media during break times. Staff will avoid using social media in front of pupils.

Staff members will not use any school-owned mobile devices to access personal accounts, unless it is beneficial to the material being taught – prior permission will be sought from the headteacher. Staff are not permitted to use the school's WiFi network to access personal accounts, unless otherwise permitted by the headteacher, and once the online safety officer has ensured the necessary network security controls are applied.

Staff will not 'friend', 'follow' or otherwise contact pupils or parents through their personal social media accounts. If pupils or parents attempt to 'friend' or 'follow' a staff member, they will report this to the headteacher.

Staff members will not provide their home address, phone number, mobile number, social networking details or email addresses to pupils or parents – any contact with pupils or parents will be done through authorised school contact channels. Staff members will use their school email address for school business and personal email address for their private correspondence; the two should not be mixed.

Staff members will ensure the necessary privacy controls are applied to personal accounts and will avoid identifying themselves as an employee of the school on their personal social media accounts. Where staff members use social media in a personal capacity, they will ensure it is clear that views are personal and are not those of the school.

No staff member will post any content online that is damaging to the school or any of its staff or pupils. Staff members will not post any information which could identify a pupil, class or the school – this includes any images, videos and personal information. Staff will not take any posts, images or videos from social media that belong to the school for their own personal use. Staff members will not post anonymously or under an alias to evade the guidance given in this policy.

Breaches of this policy by members of staff will be taken seriously, and in the event of illegal, defamatory or discriminatory content, could lead to prosecution, disciplinary action or dismissal. Members of staff will be aware that if their out-of-work activity brings the school into disrepute, disciplinary action will be taken.

Attempts to bully, coerce or manipulate members of the school community via social media by members of staff will be dealt with as a disciplinary matter.

Social media will not be used as a platform to attack, insult, abuse or defame pupils, their family members, colleagues or other professionals.

Staff members' personal information will not be discussed on social media.

7. Parent social media use

Parents are able to comment on or respond to information shared via social media sites including Dojo; however, parents should do so in a way which does not damage the reputation of the school.

Parents will be asked not to share any photos or personal details of pupils when commenting on school social media sites, nor post comments concerning other pupils or staff members, in accordance with the Social Media Code of Conduct and Dojo Agreement.

Any parents that are seen to be breaching the guidance in this policy will be required to attend a meeting with the headteacher, and may have their ability to interact with the social media websites removed.

Breaches of this policy will be taken seriously, and in the event of illegal, defamatory or discriminatory content could lead to prosecution.

8. Pupil social media use

Pupils will not access social media during lesson time, unless it is part of a curriculum activity. Pupils are not permitted to use the school's WiFi network to access any social media platforms unless prior permission has been sought from the headteacher, and the online safety officer has ensured appropriate network security measures are applied.

Pupils will not attempt to 'friend', 'follow' or otherwise contact members of staff through their personal social media accounts. Pupils are only permitted to be affiliates of school social media accounts. Where a pupil or parent attempts to "friend" or 'follow' a staff member on their personal account, it will be reported to the headteacher.

Pupils will not post any content online which is damaging to the school or any of its staff or pupils. Pupils will not post anonymously or under an alias to evade the guidance given in this policy.

Pupils are instructed not to sign up to any social media sites that have an age restriction above the pupil's age.

If inappropriate content is accessed online on school premises, it will be reported to a teacher.

Breaches of this policy will be taken seriously, and in the event of illegal, defamatory or discriminatory content, could lead to exclusion.

9. Online safety

Any disclosures made by pupils to staff about online abuse, harassment or exploitation, whether they are the victim or disclosing on behalf of another child, will be handled in line with the Child Protection and Safeguarding Policy.

Concerns regarding a staff member's online behaviour will be reported to the headteacher, who will decide on the best course of action in line with the relevant policies, e.g. the Staff Code of Conduct, Allegations of Abuse Against Staff Policy, and Disciplinary Policy and Procedures. If the concern is about the headteacher, it will be reported to the chair of governors.

Concerns regarding a pupil's online behaviour will be reported to the DSL, who will investigate any concerns with relevant staff members, e.g. the headteacher and ICT technicians, and manage concerns in accordance with relevant policies depending on their nature, e.g. the Behaviour Policy and Child Protection and Safeguarding Policy.

Where there is a concern that illegal activity has taken place, the headteacher will contact the police. The school will avoid unnecessarily criminalising pupils, e.g. calling the police, where criminal behaviour is thought to be inadvertent and as a result of ignorance or normal developmental curiosity, e.g. a pupil has taken and distributed indecent imagery of themselves. The DSL will decide in which cases this response is appropriate and will manage such cases in line with the Child Protection and Safeguarding Policy.

As part of the usual communication with parents, the school will reinforce the importance of pupils being safe online and inform parents what systems the school uses to filter and monitor online use. The school will also make it clear to parents what their children are being asked to do online for school, including what sites they will be asked to access and who from the school, if anyone, they will be interacting with online. This will be identified in half termly learning grids and shared with parents via Dojo.

10. Blocked content

NCC will install firewalls on the school's network to prevent access to certain websites. The following social media websites are not accessible on the school's network:

- Twitter
- Facebook
- Instagram

NCC retains the right to monitor staff and pupil access to websites when using the school's network and on school-owned devices.

Attempts made to circumvent the network's firewalls will result in a ban from using school computing equipment, other than with close supervision.

Inappropriate content accessed on the school's computers will be reported to the online safety officer so that the site can be blocked. Requests may be made to access erroneously blocked content by submitting a blocked content access form to the online safety officer, which will be approved by the headteacher.

11. Cyberbullying

Cyberbullying incidents including use of AI are taken seriously. Any reports of cyberbullying on social media platforms by pupils will be handled in accordance with the Anti-bullying Policy.

Cyberbullying against pupils or staff is not tolerated under any circumstances. Incidents of cyberbullying are dealt with quickly and effectively wherever they occur in line with the Anti-bullying Policy. Allegations of cyberbullying from staff members will be handled in accordance with the Allegations of Abuse Against Staff Policy.

12. Training

The school recognises that early intervention can protect pupils who may be at risk of cyberbullying or negative social media behaviour. As such, teachers will receive training in identifying potentially at-risk pupils. Teachers and support staff will receive training on social media as part of their new starter induction. Teachers and support staff will receive termly and ongoing training as part of their development.

Pupils will be educated about online safety and appropriate social media use on a termly basis through a variety of mediums, including assemblies, PSHE lessons and cross-curricular links. Pupils will be provided with material to reinforce their knowledge.

Parents will be invited to online safety and social media training on an annual basis and provided with relevant resources, such as our Social Media Code of Conduct for Parents.

Training for all pupils, staff and parents will be refreshed in light of any significant incidents or changes.

13. Monitoring and review

This policy will be reviewed on an annual basis by the headteacher, in conjunction with the communications officer and DPO.

Any changes made to this policy will be communicated to all staff, pupils and parents.
