Statement of intent

1. Legal framework
2. LA duties
3. Definitions
4. Roles and responsibilities
5. Managing absence
6. Support for pupils
7. Reintegration
8. Information sharing
9. Record keeping
10. Training
11. Examinations and assessments
12. Monitoring and review

Statement of intent

Shanklea Primary aims to ensure that all pupils who are unable to attend school due to medical needs continue to receive the same high standard of education, including physical education, and attend as many school trips as their medical condition allows.

Due to the nature of their health needs, however, some pupils may be admitted to hospital or placed in alternative forms of education provision and unable to attend school as normal. We recognise that, whenever possible, pupils should receive their education within their school and the aim of the provision will be to help reintegrate pupils back into school as soon as they are well enough.

We understand that we have a continuing role in a pupil's education whilst they are not attending the school and will work with the LA, healthcare partners and families to ensure that all pupils with medical needs receive the right level of support to enable them to maintain links with the school.

1. Legal framework

This policy has due regard to all relevant legislation and statutory guidance including, but not limited to, the following:

- Education Act 1996
- Equality Act 2010
- The UK General Data Protection Regulation (UK GDPR)
- Data Protection Act 2018
- DfE (2026) 'Keeping children safe in education 2026'
- DfE (2023) 'Arranging education for children who cannot attend school because of health needs'
- DfE (2015) 'Supporting pupils at school with medical conditions'
- DfE (2026) 'Allergy safety in schools'
- DfE (2026) 'Working together to improve school attendance'

This policy operates in conjunction with the following school policies:

- Attendance and Absence Policy
- Safeguarding and Child Protection Policy
- Remote Education Policy
- Special Educational Needs and Disabilities (SEND) Policy
- Supporting Pupils with Medical Conditions Policy
- Allergy and Anaphylaxis Policy

2. LA duties

For the purpose of this policy, the LA's duties when pupils are unable to attend school due to health needs are outlined below. These duties have been included so as to differentiate the responsibilities that lie with the school and those that will be carried out by the LA. The school is not responsible for ensuring that the LA meets its responsibilities – the school's responsibilities are outlined in the ['Roles and responsibilities'](#) section of this policy.

The LA will be responsible for arranging suitable full-time education for children of compulsory school age who, because of illness, would not receive suitable education without such provision. The school will fulfil its duty to effectively collaborate and communicate with the LA as required.

In line with statutory guidance, it will be the LA's responsibility to:

- Provide such education as soon as it is clear that a pupil will be away from school for 15 days or more, whether consecutively or cumulatively.
- Liaise with the appropriate medical professionals to ensure minimal delay in arranging appropriate provision for the pupil.
- Ensure the education pupils receive is of good quality, allows them to take appropriate qualifications, prevents them from falling behind their peers in school, and allows them to reintegrate successfully back into school as soon as possible.
- Address the needs of individual pupils in arranging provision.
- Have a named officer responsible for the education of pupils with additional health needs and ensure parents know who this is.

- Have a written, publicly accessible policy statement on their arrangements to comply with their legal duty towards children with additional health needs.
- Review the provision offered regularly to ensure that it continues to be appropriate for each pupil and that it provides suitable education.
- Have clear policies on the provision of education for children and young people under and over compulsory school age.
- Maintain good links with the schools in its area and put systems in place to promote co-operation between them when children cannot attend due to ill health.

To comply with statutory guidance, the LA will be expected to not:

- Have processes or policies in place which prevent a child from getting the right type of provision and a good education.
- Withhold or reduce the provision, or type of provision, for a child because of how much it will cost.
- Have policies based upon the percentage of time a pupil is able to attend school rather than whether the pupil is receiving a suitable education during that attendance.
- Have lists of health conditions which dictate whether or not they will arrange education for children or inflexible policies which result in children going without suitable full-time education (or as much education as their health condition allows them to participate in).

3. Definitions

“**Children with health needs**” are children of compulsory school age who are unable to attend school as a result of their medical needs. These medical needs include:

- Physical health issues.
- Physical injuries.
- Mental health problems, including anxiety issues.
- Emotional difficulties, emotionally based school avoidance, or other barriers to attendance linked to mental health or emotional wellbeing.
- Progressive conditions.
- Terminal illnesses.
- Chronic illnesses.

Children who are unable to attend mainstream education for health reasons may attend or participate in any of the following:

- **Hospital school** – a school within a hospital setting where education is provided to give continuity whilst the child is receiving treatment.
- **Home tuition** – many LAs have home tuition services that act as a communication channel between schools and pupils on occasions where pupils are too ill to attend school and are receiving specialist medical treatment.
- **Medical PRUs** – these are LA establishments that provide education for children unable to attend their registered school due to their medical needs.

For the purpose of this policy, “**school-based support**” in relation to supporting pupils with additional health needs may include:

- Day-to-day support offered at school where the pupil is able to attend as normal.
- Support given to pupils who are absent from school because of illness for a period of less than 15 school days, whether consecutive or cumulative.
- Any educational or extra-curricular provision as requested by the LA as part of its arrangements for pupils who cannot attend school full-time, e.g. where the pupil attends school part-time as an arranged part of their full-time education provision.
- As part of their reintegration into normal school attendance following a period of absence or part-time attendance due to health needs.

“LA-arranged education”, for the purpose of this policy, is defined as education provision arranged by the LA where the pupil cannot attend school full time due to medical reasons for a period of 15 school days or more, whether consecutive or cumulative.

4. Roles and responsibilities

The governing board will be responsible for:

- Ensuring there is a schedule of regular updates on the arrangements made for pupils who cannot attend the school due to their medical needs.
- Ensuring the roles and responsibilities of those involved in any school-based arrangements to support the needs of pupils are clear and understood by all.
- Ensuring robust systems are in place for dealing with health emergencies and critical incidents where a pupil with health needs is able to, or partially able to, attend school and/or extra-curricular activities.
- Ensuring a suitable member of staff is assigned responsibility for the education of pupils with additional health needs to be a point of contact for the LA and parents.
- Ensuring staff with responsibility for supporting pupils with additional health needs are appropriately trained.
- Approving and reviewing this policy on an annual basis.

The headteacher will be responsible for:

- Working with the governing board to ensure compliance with the relevant statutory duties when supporting pupils with additional health needs.
- Working collaboratively with the LA, parents and other professionals, as necessary, to develop any school-based arrangements to meet the needs of pupils.
- Ensuring any school-based arrangements put in place to meet pupils' health needs are fully understood by all those involved and acted upon.
- Appointing a named member of staff who is responsible for pupils with additional health needs and liaises with parents, pupils, the LA, key workers and others involved in the pupil's care.
- Ensuring any school-based support put in place focusses on and meets the needs of individual pupils.
- Arranging appropriate training for staff with responsibility for supporting pupils with additional health needs who are attending school, or attend school part-time.
- Providing teachers who support pupils with additional health needs with suitable information relating to a pupil's health condition and the possible effect the condition and/or medication taken has on the pupil.

- Providing annual reports to the governing board on the effectiveness of any school-based arrangements in place to meet the needs of pupils who cannot attend school due to health needs.
- Notifying the LA when a pupil is likely to be away from the school for a significant period of time due to their health needs.

The named member of staff will be responsible for:

- The management of any pupils registered at the school who are unable to fully attend school because of their health needs.
- Actively monitoring pupil progress and reintegration into school.
- Supplying any LA-arranged education providers with information about pupils' capabilities, progress and outcomes.
- Liaising with the headteacher, LA-arranged education providers, and parents to help determine pupils' programmes of study whilst they are absent from school, where necessary.
- Keeping pupils who are being educated by LA-arranged education providers informed about school events and encouraging communication with their peers.
- Providing a link between pupils and their parents, the school, and LA where necessary.

Staff will be responsible for:

- Understanding confidentiality in respect of pupils' health needs.
- Designing school-based activities, including lessons, in a way that allows pupils with additional health needs to participate fully and ensuring pupils are not excluded from activities that they wish to take part in without a clear evidence-based reason.
- Understanding their role in any school-based support for pupils with additional health needs and ensuring they attend the required training.
- Ensuring they are aware of the needs of their pupils through the appropriate and lawful sharing of individual pupils' health needs.
- Keeping parents informed of how their child's health needs are affecting them whilst in school-based education.

Parents will be expected to:

- Support regular and punctual attendance where the pupil's health allows, and work with the school to identify and reduce health-related barriers to attendance.
- Work in partnership with the school, LA and any LA-arranged provision to ensure the best possible outcomes for their child.
Notify the school, or the relevant education provider, of the reason for any of their child's absences without delay.
- Provide the school with sufficient and up-to-date information about their child's medical needs.
- Attend meetings to discuss how any school-based support, including reintegration, for their child should be planned.

5. Managing absence

Parents will be required to contact the school on the first day their child is unable to attend due to illness.

Where absence is linked to physical or mental health needs, the school will work collaboratively with the pupil, parents/carers and relevant professionals to understand barriers, agree appropriate support and secure the best possible attendance that the pupil's health allows.

Absence due to illness will be considered in line with the school's Attendance and Absence Policy and current statutory attendance guidance. The school will take a support-first approach, seeking to understand and address barriers to attendance. Medical evidence will not routinely be required for short-term illness, but may be requested where it is reasonable and necessary to understand a pupil's needs, plan support, or meet statutory responsibilities.

The school will provide support to pupils who are absent from school because of illness for a period of less than 15 school days, whether consecutive or cumulative, by liaising with the pupil's parents to arrange schoolwork, as soon as the pupil is able to cope with it, or part-time education at school. The school will give due consideration to which aspects of the curriculum are prioritised in consultation with the pupil, their parents and relevant members of staff.

For periods of absence that are expected to last for 15 or more school days, either in one absence or over the course of a school year, the named member of staff with responsibility for pupils with additional health needs will notify the LA, who will take responsibility for the pupil and their education.

Where absences are anticipated or known in advance, the school will liaise with the LA to enable education provision to be provided from the start of the pupil's absence.

For planned hospital admissions, the appointed named member of staff will liaise with the LA and the hospital education provider as early as possible to discuss the likely admission date and expected length. Plans will be made, where possible, for the educational programme to be followed while the pupil is in hospital.

The school will work with the LA and any education provider to agree and record an appropriate education plan for the pupil, setting out provision, responsibilities, review arrangements and arrangements for maintaining links with school. The terminology and format used will reflect the LA's current Section 19 procedures.

The school will monitor pupil attendance and mark registers to ensure it is clear whether a pupil is, or should be, receiving education other than at school.

The school will only remove a pupil who is unable to attend school because of additional health needs from the school roll where:

- The pupil has been certified by the school's medical officer as unlikely to be in a fit state of health to attend school, before ceasing to be of compulsory school age; and

- Neither the pupil nor their parent has indicated to the school the intention to continue to attend the school, after ceasing to be of compulsory school age.

A pupil unable to attend school because of their health needs will not be removed from the school register without parental consent and certification from the school's medical officer, even if the LA has become responsible for the pupil's education.

Staff will be alert to the fact that missing education can put pupils at risk of harm and may be an indicator of a safeguarding issue. Concerns will be handled in line with the Safeguarding and Child Protection Policy and relevant children-missing-education procedures. Staff will also consider whether the pupil or family would benefit from universal support, community-based early help or targeted Family Help, and will follow local safeguarding partnership arrangements where appropriate.

The school will provide to the LA, at agreed intervals, the full name and address of any pupils who are not attending school regularly, including if this is due to any additional health needs.

6. Support for pupils

Where a pupil has a complex or long-term health issue, the school will discuss the pupil's needs and how these may be best met with the LA, relevant medical professionals, parents and, where appropriate, the pupil.

Pupils with continuing health needs will have an IHP which is subject to regular review and assessment. Where a pupil's needs amount to ongoing SEND, an EHC plan may be more appropriate to meet their long-term needs. Where a pupil has an EHC plan and an IHP, both plans will be reviewed alongside each other.

Medical evidence will be used where available to understand a pupil's needs and identify suitable provision. Where specific medical evidence is not readily available, the school will consider information from the pupil, parents/carers, healthcare professionals and other relevant sources so that support is not unnecessarily delayed. Once sufficient evidence has been provided, the school will not routinely seek repeated medical evidence without good reason.

The LA expects the school to support pupils with additional health needs to attend full-time education wherever possible, or for the school to make reasonable adjustments to pupils' programmes of study where medical evidence supports the need for those adjustments.

The school will make reasonable adjustments under pupils' IHPs, in accordance with the Supporting Pupils with Medical Conditions Policy.

Pupils admitted to hospital will receive education as determined appropriate by the medical professionals and hospital tuition team at the hospital concerned.

During a period of absence, the school will work with the provider of the pupil's education to establish and maintain regular communication and effective outcomes.

The use of digital resources will be considered to support learning and complement face-to-face education, where appropriate. Digital resources will only be used in accordance with the pupil's needs. Staff will follow procedures set out in the Remote Education Policy.

Whilst a pupil is away from school, the school will work with the LA to ensure the pupil can successfully remain in touch with the school using the following methods:

- Digital learning platforms
- School newsletters
- Social media platforms
- Emails
- Invitations to school events
- Cards or letters from peers and staff

Where appropriate, the school will provide the pupil's education provider with relevant information, curriculum materials and resources. The school will strive to achieve effective collaboration between relevant services to ensure continuity of provision and consistency of curriculum.

Provision for pupils will support their individual needs to overcome barriers to attainment and achievement, giving equal consideration to their pastoral needs to allow them to prosper in the education system. Consideration will be given to the pupil's personal, social and emotional needs to allow them to feel fully included in the school community, maintain contacts with classmates and have access to the same opportunities.

To help ensure a pupil with additional health needs is able to attend school following an extended period of absence, the following adaptations will be considered:

- A personalised or temporary part-time timetable, where this is in the pupil's best interests and linked to their health needs

Any part-time timetable will be exceptional and temporary, agreed with parents/carers, recorded as part of a clear support or reintegration plan, reviewed regularly and, where appropriate, include a plan to increase attendance. It will not be used simply to manage behaviour, SEND or staffing pressures, and safeguarding arrangements will be considered for any time the pupil would otherwise be expected to be in school.

- Access to additional support in school
- Online access to the curriculum from home
- Movement of lessons to more accessible rooms
- Places to rest at school
- Special exam arrangements to manage anxiety or fatigue

The school will ensure that pupils are involved in decision-making as much as possible, in accordance with the pupil's age and maturity, to help ensure that the right provision is offered and encourage their commitment and engagement.

Alongside the LA, the provision offered to a pupil will be regularly reviewed by the school to ensure it continues to be appropriate for the pupil's needs and that suitable education is being provided. The review process will seek input from:

- The pupil.
- Parents.
- Relevant agencies and medical practitioners, where possible.
- The LA SEND team, where the pupil has an EHC plan.

7. Reintegration

When a pupil is considered well enough to return to school, the school will develop a tailored reintegration plan in collaboration with the LA.

During a lengthy absence, a reintegration plan will be developed near to the likely date of return to avoid putting unsuitable pressure on an ill pupil in the early stages of their absence.

The school will work with the LA when reintegration into school is anticipated to plan for consistent provision during and after the period of education outside school.

As far as possible, the pupil will be able to access the curriculum and materials that they would have used in school.

If appropriate, the school nurse will be involved in the development of the pupil's reintegration plan and informed of the timeline of the plan by the appointed named member of staff, to ensure they can prepare to offer any appropriate support to the pupil.

The school will consider whether any reasonable adjustments need to be made to provide suitable access to the school and the curriculum for the pupil.

For longer absences, the reintegration plan will be developed near to the pupil's likely date of return, to avoid putting unnecessary pressure on an ill pupil or their parents in the early stages of their absence.

The school is aware that some pupils will need gradual reintegration over a long period of time and will always consult with the pupil, their parents and key staff about concerns, medical issues, timing and the preferred pace of return.

The reintegration plan will include:

- The date for planned reintegration, once known.
- Details of regular meetings to discuss reintegration.
- Details of the named member of staff who has responsibility for the pupil.
- Clearly stated responsibilities and the rights of all those involved.
- Details of social contacts, including the involvement of peers and mentors during the transition period.
- A programme of small goals leading up to reintegration.
- Follow-up procedures.

The school will ensure a welcoming environment is developed and encourage pupils and staff to be positive and proactive during the reintegration period.

Following reintegration, the school will support the LA in seeking feedback from the pupil regarding the effectiveness of the process.

8. Information sharing

It is essential that all information about pupils with additional health needs is kept up-to-date.

Teachers, TAs, supply staff and relevant support staff will be provided with access to the information they need to keep pupils safe and support them effectively, including high-risk

health needs, first-aid arrangements and emergency procedures, through the school's secure information-management systems. Access will be proportionate to role and on a need-to-know basis.

Parents will be made aware of their own rights and responsibilities regarding confidentiality and information sharing. To help achieve this, the school will:

- Ensure this policy and other relevant policies are easily available and accessible.
- Provide the pupil and their parents with a copy of the policy on information sharing.
- Seek and record parental consent for routine sharing of health information where appropriate. The school may share relevant information without consent where there is another lawful basis to do so, including where sharing is necessary to safeguard a child, protect vital interests, meet a legal duty, or enable appropriate education or healthcare support.
- Consider how friendship groups and peers may be able to assist pupils with additional health needs.

When a pupil is discharged from hospital or is returning from other education provision, the school will ensure the appropriate information is received to allow for a smooth return to the school. The named member of staff will liaise with the hospital or other tuition service as appropriate.

9. Record keeping

In accordance with the Supporting Pupils with Medical Conditions Policy, written records will be kept of all medicines administered to pupils.

Proper record keeping will protect both staff and pupils and provide evidence that agreed procedures have been followed.

All records will be maintained in line with the Records Management Policy.

10. Training

Healthcare professionals will be involved in identifying and agreeing with the school the type and level of training required. Training will be sufficient to ensure staff are confident in their ability to support pupils with additional health needs.

Staff will be trained in a timely manner to assist with a pupil's return to school.

Relevant staff will receive any required training in sufficient time before the pupil returns to school or before the support is required, with refresher or additional training provided where needs change.

Parents of pupils with additional health needs may provide specific advice but will not be the sole trainer of staff.

11. Examinations and assessments

For statutory assessments and any other relevant examinations or assessments, the school will consider and implement reasonable adjustments and access arrangements in line with

current requirements so that pupils with additional health needs are not placed at a disadvantage.

Where a pupil is receiving education through an alternative or hospital provider, the named member of staff will liaise with the provider about relevant curriculum and assessment requirements.

Relevant assessment information will be provided to the alternative provision provider if required.

Where external awarding-body arrangements apply, applications for special consideration, access arrangements or reasonable adjustments will be made as early as practicable by the school or LA, as appropriate.

12. Monitoring and review

This policy will be reviewed by the governing board at least annually and sooner where required by changes to legislation, statutory guidance or local procedures. Any changes will be communicated clearly to staff involved in supporting pupils with additional health needs and, where relevant, to parents/carers and pupils.

The next scheduled review date for this policy is September 2027, or sooner if there are significant changes to legislation, statutory guidance or local procedures.
