

Please find below the outline of the School Games Calendar for 2020-21. These are still subject to final confirmation, and the specific details of each competition will be shared closer to each event.

As part of the Reframing Competition agenda, ensuring that the competition experience is a positive one for many more young people, some of the events are aimed at particular focus groups. These groups are broadly defined as follows:

Group	Definition
A ccess	<i>These children are motivated to take part because they are competing with their friends. The score is not as important as the opportunity to take part. These competitions will reward participation, effort, attitude and / or progress.</i>
B elong	<i>The other competitions are not accessible for these children. Usually, this is because these children have additional needs.</i>
C ompete	<i>These are the most competitive children. They are physically able and mentally resilient. Competitions will be decided by the best performance / highest score.</i>
D evelop	<i>These children want to play in a competition but they are not as physically able and / or mentally resilient. Many competitions will mirror those for the 'Compete' but they will be played with more coaching input.</i>
E nrich	<i>These children / young people may not want to compete but can benefit from other opportunities afforded by participation in the School Games e.g. leadership, festivals.</i>

We hope to hold "Virtual Live" Level 3 county finals where possible. Where this isn't possible or appropriate the county level will be taken from our area's level 2 results or the creation and sharing of a celebration film.
