Monitoring and review

First Aid Policy Appendix: First Aid Procedures During the Coronavirus (COVID-19) Pandemic

Statement of intent

Shanklea Primary School is committed to providing emergency first aid provision in order to deal with accidents and incidents affecting staff, pupils and visitors. The arrangements within this policy are based on the results of a suitable and sufficient risk assessment carried out by the school in regard to all staff, pupils and visitors.

The school will take every reasonable precaution to ensure the safety and wellbeing of all staff, pupils and visitors.

This policy aims to:

- Ensure that the school has adequate, safe and effective first aid provision for every pupil, member of staff and visitor to be well looked after in the event of any illness, accident or injury, no matter how major or minor.
- Ensure that staff and pupils are aware of the procedures in the event of any illness, accident or injury.
- Ensure that medicines are only administered at the school when express permission has been granted for this.
- Ensure that all medicines are appropriately stored.
- Promote effective infection control.

Nothing in this policy will affect the ability of any person to contact the emergency services in the event of a medical emergency. For the avoidance of doubt, staff should dial 999 in the event of a medical emergency before implementing the terms of this policy and make clear arrangements for liaison with ambulance services on the school site.

Legal framework

This policy has due regard to legislation and statutory guidance, including, but not limited to, the following:

- Health and Safety at Work etc. Act 1974
- The Health and Safety (First Aid) Regulations 1981
- The Management of Health and Safety at Work Regulations 1999
- The Reporting of Injuries, Diseases and Dangerous Occurrences Regulations (RIDDOR) 2013
- DfE (2015) 'Supporting pupils at school with medical conditions'
- DfE (2000) 'Guidance on first aid for schools'
- DfE (2019) 'Automated external defibrillators (AEDs)'
- DfE (2021) 'Statutory framework for the early years foundation stage'

The policy is implemented in conjunction with the following school policies:

- Health and Safety Policy
- Administering Medication Policy
- Infection Control Policy
- Supporting Pupils with Medical Conditions Policy
- Behavioural Policy
- Child Protection and Safeguarding Policy
- Outings and Visits Policy

Roles and responsibilities

The governing board is responsible for:

- The overarching development and implementation of this policy and all corresponding procedures.
- Ensuring that the relevant risk assessments and assessments of the first aid needs of the school specifically, have been conducted.
- Ensuring that there is a sufficient number of appointed first aiders within the school based upon these assessments.
- Ensuring that there are procedures and arrangements in place for first aid during off-site or out-of-hours activities, e.g. educational visits or parents' evenings.
- Ensuring that insurance arrangements provide full cover for any potential claims arising from actions of staff acting within the scope of their employment.
- Ensuring that appropriate and sufficient first aid training is provided for staff, and ensuring that processes are in place to validate that staff who have undertaken training have sufficient understanding, confidence and expertise in carrying out first aid duties.
- Ensuring that adequate equipment and facilities are provided for the school site.
- Ensuring that first aid provision for staff does not fall below the required standard and that provision for pupils and others complies with the relevant legislation and guidance.
- Ensuring that an 'appointed person' is selected from amongst staff to take the lead in first aid arrangements and procedures for the school.

The headteacher is responsible for:

- The development and implementation of this policy and its related procedures.
- Ensuring that all staff and parents are made aware of the school's policy and arrangements regarding first aid.
- Ensuring that all staff are aware of the locations of first aid equipment and how it can be accessed, particularly in the case of an emergency.
- Ensuring that all pupils and staff are aware of the identities of the school first aiders and how to contact them if necessary.

Staff are responsible for:

- Ensuring that they have sufficient awareness of this policy and the outlined procedures, including making sure that they know who to contact in the event of any illness, accident or injury.
- Endeavouring at all times to secure the welfare of the pupils at school.
- Making pupils aware of the procedures to follow in the event of illness, accident or injury.

First aid staff are responsible for:

- Completing and renewing training as dictated by the governing board.
- Ensuring that they are comfortable and confident in administering first aid.
- Ensuring that they are fully aware of the content of this policy and any procedures for administering first aid, including emergency procedures.

The appointed person is responsible for:

- Overseeing the school's first-aid arrangements.
- Taking charge when someone is injured or becomes ill.
- Looking after the first-aid equipment, e.g. restocking the first aid container.
- Ensuring that an ambulance or other professional medical help is summoned when appropriate.
- Partaking in emergency first aid training, and refresher training where appropriate, to ensure they have knowledge of:
 - What to do in an emergency.
 - Cardiopulmonary resuscitation.
 - First aid for the unconscious casualty.
 - First aid for the wounded or bleeding.
 - Maintaining injury and illness records as required.

First aid provision

The school will routinely re-evaluate its first aid arrangements, at least annually, to ensure that these arrangements continue to be appropriate for hazards and risks on the school premises, the size of the school, the needs of any vulnerable individuals onsite, and the nature and distribution of pupils and staff throughout the school.

The school will have suitably stocked first aid boxes in line with the assessment of needs. Where there is no special risk identified, a minimum provision of first aid items will be as follows:

- A leaflet giving general advice on first aid
- 20 individually wrapped sterile adhesive dressings, of assorted sizes
- 2 sterile eye pads
- 4 individually wrapped triangular bandages, preferably sterile

- 6 safety pins
- 6 medium-sized (approximately 12cm x 12cm) individually wrapped sterile unmedicated wound dressings
- 2 large-sized (approximately 18cm x 18cm) individually wrapped sterile unmedicated wound dressings
- 1 pair of disposable gloves

All first aid containers will be identified by a white cross on a green background.

The appointed person will routinely examine the contents of first aid boxes, including any mobile first aid boxes for offsite use – these will be frequently checked and restocked as soon as possible after use. Items will be safely discarded after the expiry date has passed.

First aid boxes are in the following areas:

- The school office (main)
- In every classroom (small)
- School kitchen (main)
- Year 5 study area

First aiders

The main duties of first aiders will be to administer immediate first aid to pupils, staff or visitors, and to ensure that an ambulance or other professional medical help is called when necessary.

The school will ensure that all first aiders hold a valid certificate of competence, issued by a HSE-approved organisation, and that refresher training and retesting of competence is arranged for first aiders within the school before certificates expire.

The school will be mindful that many standard first aid at work training courses do not include resuscitation procedures for children, and will consequently ensure that appropriate training is secured for first-aid personnel where this has not already been obtained.

First aiders will ensure that their first aid certificates are kept up-to-date through liaison with the SBM.

Each classroom's first aiders will be responsible for ensuring all first aid kits are properly stocked and maintained. The first aid appointed person will be responsible for maintaining supplies.

First aid notices will be clearly displayed throughout the school with information on the names and locations of first aiders to ensure that pupils and staff know who they must contact in the event of illness or injury.

The current paediatric first aid appointed person(s) are:

Name	Location	Date of first aid qualification
J Ainsley	Reception	25.6.2021
J Butler	KS2/OOSC	25.6.2021
L Connelly	Squirrels/Nursery	5.7.2021
J Graham	Whole school/OOSC	27.1.2020
S McBride	Whole school	27.1.2020
H McClurry	Reception	5.7.2021

The school will ensure that there is always a sufficient number of first-aid personnel available on site at all times to provide adequate cover to all areas of the school.

[EYFS only] In line with government guidance, and taking into account staff:child ratios, the school will ensure that there is at least one member of staff with a current and full Paediatric First Aid (PFA) certificate on the premises and available at all times when pupils are present, and accompanying pupils on any and all outings taken.

All staff members will be made aware that agreeing to become a first aider for the school is strictly on a voluntary basis and that they should never feel pressured to take on this role.

When selecting first aiders, the school will follow the criteria laid out in government guidance, considering the individual's:

- Reliability and communication skills.
- Aptitude and ability to absorb new knowledge and learn new skills.
- Ability to cope with stressful and physically demanding emergency procedures.
- Normal duties – a first aider must be able to leave to go immediately to an emergency.

Automated external defibrillators (AEDs)

The school has received a donated AED which is located by the school office in the front foyer area.

Where the use of the AED is required, individuals will follow the step-by-step instructions displayed on the device.

Emergency procedures

If an incident, illness or injury occurs, the member of staff in charge will assess the situation and decide on the appropriate course of action, which may involve calling for an ambulance immediately or calling for a first aider.

If called, a first aider will assess the situation and take charge of first aid administration. If the first aider does not consider that they can adequately deal with the presenting condition by the administration of first aid, then they will arrange for the injured person to access appropriate medical treatment without delay.

Where an initial assessment by the first aider indicates a moderate to serious injury has been sustained, or the individual has become seriously unwell, a responding staff member will call 999 immediately. Ideally this will be via a phone/mobile phone located near the casualty to facilitate prompt and precise communication with emergency services.

Where necessary, a trained staff member will administer emergency help and first aid to all injured persons. The purpose of this is to keep the victim alive and, if possible, comfortable, before professional medical help arrives. In some situations, immediate action can prevent the accident from becoming increasingly serious, or from involving more victims.

Where the seriously injured or unwell individual is a pupil, the following process will be followed:

- A responding staff member calls 999 immediately and follows the instructions of the operator – this may include the administering of emergency first aid.
- Where an ambulance is required, a staff member accompanies the pupil in the ambulance and calls the pupil's parent as soon as possible to inform them of the course of action taken. The staff member remains with the pupil at the hospital until a parent arrives.
- Where an ambulance is not required, the pupil's parent is called as soon as possible to inform them of the accident and request that they attend the site as soon as possible to collect their child.
- The school will ensure that no further injury can result from any incidents that occur, either by making the scene of the incident safe, or (if they are fit to be moved) by removing injured persons from the scene.
- Responding staff members will see to any pupils who may have witnessed the incident or its aftermath and who may be worried or traumatised, despite not being directly involved. These pupils will be escorted from the scene of the incident and comforted. Younger or more vulnerable pupils may need parental support to be called immediately.

Once the above action has been taken, details of the incident will be reported promptly to:

- The headteacher and/or the school business manager.
- The parents of the victim(s).

Reporting accidents and record keeping

In the event of incident or injury to a pupil, a parent will be informed as soon as practicable. In the event of a serious injury or an incident requiring emergency medical treatment, the pupil's class teacher will telephone the pupil's parents as soon as possible. Parents will be informed in writing of any injury to the head, whether minor or major, and be given guidance on the action to take if symptoms develop.

A list of emergency contacts will be kept at the school office.

The appointed person will ensure that records are kept of any injuries, accidents or illnesses, as well as any first aid treatment that is given – this will include:

- The date, time and place of the incident.
- The name and class of the injured or ill person.
- Details of the injury or illness and what first aid was given.
- What happened to the person immediately afterwards, e.g. whether they were sent home or went back to class.
- Name and signature of the first aider or person dealing with the incident.

The headteacher or school business manager will ensure that any injury or accident that must be reported to the HSE or LA under RIDDOR obligations is reported in a timely and detailed manner.

All records will be filed and stored in the Accident Reporting File held in the school office.

Offsite visits and events

Before undertaking any offsite visits or events, the teacher organising the trip or event will assess the level of first aid provision required by undertaking a suitable and sufficient risk assessment of the visit or event and the persons involved.

For more information about the school's educational visit requirements, please see the Outings and Visits Policy.

Storage of medication

Medicines will be stored securely and appropriately in accordance with individual product instructions, save where individual pupils have been given responsibility for keeping such equipment with them. Medicines will be stored in the original container in which they were dispensed, together with the prescriber's instructions for administration, and properly labelled, showing the name of the patient, the date of prescription and the date of expiry of the medicine.

Medicine brought in by pupils will be returned to their parents for safe disposal when they are no longer required or have expired.

An emergency supply of medication will be available for pupils with medical conditions that require regular medication or potentially lifesaving equipment, e.g. an EpiPen.

Parents will advise the school when a child has a chronic medical condition or severe allergy so that an Individual Healthcare Plan can be implemented and staff can be trained to deal with any emergency in an appropriate way. Examples of this include epilepsy, diabetes and anaphylaxis. A disclaimer will be signed by the parents in this regard.

Illnesses and allergies

When a pupil becomes ill during the school day, their parent will be contacted and asked to pick their child up as soon as possible.

A quiet area will be set aside for withdrawal and for pupils to rest while they wait for their parent to pick them up. Pupils will be monitored during this time.

Consent

Parents will be asked to complete and sign a School Admissions Form when their child is admitted to the school, which includes emergency numbers, alongside details of allergies and chronic conditions. Data collection forms will be updated at the start of each school year.

Staff do not act 'in loco parentis' in making medical decisions as this has no basis in law. Staff will always aim to act and respond to accidents and illnesses based on what is reasonable under the circumstances and will always act in good faith while having the best interests of the pupil in mind – guidelines will be issued to staff in this regard.

Monitoring and review

This policy will be reviewed annually by the governing body, and any changes communicated to all members of staff.

Staff will be required to familiarise themselves with this policy as part of their induction programme. Staff will be informed of the arrangements that have been made in connection with the provision of first aid, including the location of equipment, facilities and personnel.

First Aid Policy Appendix:

First Aid Procedures During the Coronavirus (COVID-19) Pandemic

Statement of intent

Shanklea Primary School aims to act in accordance with the First Aid Policy as much as possible; however, we understand that we must remain compliant with the relevant first aid legislation while the school observes infection control guidelines during the coronavirus (COVID-19) pandemic. This appendix sets out what additional actions the school is taking.

The information in this appendix is under constant review and kept up-to-date to reflect any changes to national or local guidance.

1. Legal framework

This appendix has due regard to the relevant statutory guidance, including, but not limited to, the following:

- HSE (2021) 'First aid during the coronavirus (COVID-19) pandemic'
- DfE (2021) 'Schools coronavirus (COVID-19) operational guidance'

The policy is implemented in conjunction with the following school policies:

- Infectious diseases and infection control policy
- First Aid Policy

2. Enforcing new procedures

The school has carried out a risk assessment specific to the provision of first aid during the coronavirus pandemic, taking into account factors such as the needs of clinically vulnerable individuals. The school has also undertaken a needs assessment to inform any changes to first aid provision, including the number of first aiders needed on site.

These risk assessments are periodically reviewed and kept up-to-date in line with changes to government guidance.

The school ensures that additional first aid procedures are communicated effectively to all pupils. Staff are informed about their legal responsibilities regarding first aid and the additional procedures in place. The school informs parents of any changes to provision outlined in this policy.

The school acknowledges that where conflicts between the relevant legislation and government guidance on managing the coronavirus pandemic arise, the legislation outlined in section 1 of the First Aid Policy must be followed.

All first aiders shall be informed of the results of the risk assessment to ensure that they are confident with providing the right assistance, including knowing what equipment they can use to minimise the risk of infection transmission.

3. Social distancing and infection control measures

The government has removed the requirement to maintain social distancing in most workplace situations; however, when administering first aid, the school's first aiders act in line with the following precautions:

- Wash their hands before and after administering first aid, using soap and water or alcohol-based hand sanitiser.
- Dispose of any waste in a suitable bin.
- Ensure frequently touched surfaces and equipment have been cleaned and disinfected before use.
- Keep a safe distance from others, where practicable.
- Minimise the time they share a breathing zone with the casualty.
- Limit the number of people administering first aid in each incident.
- Ensure that first aid is administered in a designated location, where possible, to minimise the spread of infection and any cleaning requirements.

No additional PPE is needed to deliver first aid to individuals who do not have coronavirus symptoms. If an individual requiring first aid has symptoms of coronavirus, appropriate PPE is worn by the first aider.

4. First aiders

The school ensures that there is a minimum of two trained first aiders on site during school hours and that there is a minimum of one trained first aider on site for the duration of any wrap-around care provision, e.g. a breakfast club.

[Early years settings] Where children aged 0 to 24 months are on site, the setting ensures at least one person who has a current PFA certificate is on site, available at all times, and accompanies children on any outings.

Where a first aider must be sent home due to showing symptoms of coronavirus, the school ensures that the minimum number of first aiders on site is maintained and arranges cover where necessary.

Where cover must be arranged, the school ensures that:

- Adequate cover is in place before the member of staff leaves the premises.
- In the event that the member of staff must lawfully remain on site, the individual is isolated in a designated room and follows the school's social distancing and infection control measures.
- Symptomatic individuals strictly do not administer first aid.
- Alternative arrangements are in place to minimise the need for a symptomatic first aider to administer first aid or where first aid provision is compromised, e.g. high-risk activities are suspended.

The school ensures that the needs of first aiders who are clinically vulnerable have been taken into account as part of its risk assessments and that no clinically vulnerable first aider engages in close-contact first aid where they are not supported to do so safely by these risk assessments, or where there is another suitable trained staff member available to undertake the first aid instead.

5. First aid training

First aiders' training is kept up-to-date.

If first aiders are unable to get annual face-to-face refresher training during the coronavirus pandemic, HSE supports the use of online refresher training to ensure their skills are kept up-to-date. The practical elements of the First Aid at Work, Emergency First Aid at Work and requalification courses are taken face-to-face by first aiders.

If a member of staff could not complete their first aid training due to the pandemic, they are able to restart at a later date so long as:

- There is a full recap of the training delivered before the pandemic prior to moving onto undelivered modules.
- The training provider is satisfied the staff member can display:
 - A full understanding of all aspects of the course content.
 - The knowledge and competencies required at the end of the training.

6. Emergencies

Accidents and emergencies are managed in line with section 6 of the First Aid Policy.

When administering emergency first aid, social distancing restrictions do not apply; however, clinically vulnerable first aiders are offered PPE when administering close-contact emergency first aid.

A member of staff calls 999 immediately if a symptomatic individual becomes severely unwell or their life is at risk. Parents who must collect their unwell child from school are informed that they must call 999 if their child becomes severely unwell or their life is at risk.

In the case that someone becomes seriously ill and CPR is required, the responding staff member should adhere to the following procedure:

- Call 999 immediately – tell the call handler if the patient is exhibiting any coronavirus symptoms
- If a portable defibrillator is available, ensure that it is used by someone who has been trained to operate it
- Before starting CPR, use a cloth or a towel to cover the patient's mouth and nose, while still permitting breathing to restart following successful resuscitation
- Use PPE, including a fluid-repellent face covering, disposable gloves, eye protection and an apron or other suitable covering
- Deliver CPR by using chest compressions and a defibrillator, if available and appropriate – do not use rescue breaths
- After delivering first aid, ensure that any disposable items are discarded, and reusable items are thoroughly cleaned
- Wash hands thoroughly with warm, soapy water

7. Monitoring and review

This appendix is reviewed by the headteacher in reaction to any new government advice and at least every month.

Once the school resumes regular activity, and if deemed appropriate by the headteacher, all sections within this appendix will expire.
