## Year 6 Safety Talk

This week, Mr Burn, a Safety and Safeguarding specialist visited our Year 6 children to share a very interesting and enlightening talk on how to keep themselves safe in the community and online.

The discussion covered lots of important areas including advice on how to best respond in particular situations.

One of the difficulties children face is peer pressure and the children were shown a useful app that can help them get out of a challenging situation by giving peers the impression that their parent, or other authority figure, has contacted them and they need to leave immediately.

There are different apps that can be used, depending on the type of phone your child has. One example for android phones is Fake Call and SMS For Android. A simple web search will help you to identify the one that is most appropriate for your child.

## Green Fingers

Members of the School Council were in action on Monday 26<sup>th</sup> June 2017 – purchasing, designing and “greening up” spaces in the school grounds with colourful flowers.

The children worked hard and chose well and were fortunate to have the support of Mrs Hagan and Ms Rigg. Thank you to the whole team for your efforts which have produced such beautiful results.

## What's on at OOSC

At Out of School Club this week our theme will be **“The Circus Comes to Town”**

Activities will be focussed on the different ages of our children and will include juggling, plate spinning, magic tricks and balancing tricks. It's going to be a fun week.

## Edinburgh Trip

Our Year 6 pupils are gearing up for their forthcoming visit to Edinburgh. We do hope the weather will be agreeable.

We want to see the statue of Greyfriars Bobby and enjoy visiting the Castle, Dynamic Earth and the Royal Yacht Britannia. We are ready to spot lots of kilts and bagpipes!

On our return, we are looking forward to sharing our experiences with you at the Leavers afternoon on **Thursday 13th July at 2pm.**

## Important Online Safety Warning Snapchat Location Tracker

We would like to share some important information with parents that we have discussed with our older children this week.

There has been a recent Location Tracking update on Snapchat that allows users to follow their friends' locations and have their own location followed by their friends.

Clearly, this information could represent a potential risk to children's safety if it were to fall in to the wrong hands.

Any parents whose children use Snapchat can protect their child by ensuring that the settings are set to “Only me (ghost mode).” This prevents other people from tracking your location.

Please note that you have to zoom out of the screen on the camera to access this part of the app.

**We strongly advise that parents continually monitor children's use of the internet and apps that their children use.**
